

I am sending this with my concerns regarding your proposed expansion of LPFM service. I currently listen to K-LOVE on FM dial 100.9 in Eugene. It serves to lift me up when I'm sad, keep my heart joyful when things are going well, but most of all, it is the one place, when I'm at work or on the road, where I can spend time with others of my faith. Hearing worship songs, prayer, encouragement, and spiritual advise for myself, my family, my marriage, and my life. Without my being able to tune in to K-LOVE my life would be changed forever. It is a place where all can go and hear the same message at the same time, and always what we need to hear at that particular time. We pray together in corporate prayer which is good for Christians. Whenever I turn this station on, I am guaranteed that there will never be an occasion where I would need to turn the radio off, to avoid having my friends, family, or grandchildren hearing suggestive remarks or bad language. This is the one place where I can go to worship along with ever song. This is vital to my life and community. Please do not take that away from me and the others in my listening area that will be affected in a most negative way.
